

## Nortel Optical Metro

Optical Metro 3000 Series	Product Name	Product Type	Key Features & Uses	Pricing
	Nortel Optical Metro 3000 Series	SONET Platform	The Optical Metro 3000 series is a family of leading edge next-generation SONET platforms that offers DWDM with a variety of services such as TDM (DS1, DS3, DS3 Transmux, EC-1/STS-1, OC-3, OC-12, OC-48, OC-192), storage (Fibre Channel and FICON), and Ethernet (10/100 Base-T, 100 Base-FX and Gigabit Ethernet).	<a href="#">Click here to request a quote for the complete system</a>
<h3>Product Description</h3>				
<p>Its fully non-blocking switching architecture provides unmatched bandwidth management capabilities and innovative service modules enabling the industry's highest density service termination without stacking multiple shelves.</p> <p>Optical Metro 3000 series portfolio of products is equipped with Resilient Packet Ring technology, Generic Framing Protocol (GFP) service mapping and Virtual Concatenation (VCAT) that enable efficient bandwidth utilization with native rate client data and storage interfaces.</p>

Optical Metro 4000 Series	Product Name	Product Type	Key Features & Uses	Pricing
	Nortel Optical Metro 4000 Series	SDH Platform	The Optical Metro 4100, 4150 and 4200 Multiservice Next Generation SDH platforms comprise a family of full access STM-4/16 SDH multiplexers.	<b>Click here to request a quote for the complete system</b>
	<b>Product Description</b> DWDM aggregates can be used to further extend capacity to 10 Gbit/s. Key attributes are small footprint, full access, mixed payload, virtual concatenation, a fully non-blocking 4/3/1 cross-connect and proven deployment with network elements installed globally. In-service upgrade is available across the Optical Metro 4000 family.			
Optical Metro 5200 Series	Product Name	Product Type	Key Features & Uses	Pricing
	Nortel Optical Metro 5200 Series	DWDM Multiservice Platform	The Optical Metro 5200 is a DWDM multi-service platform that delivers 48 protected wavelengths of bandwidth, 10G scalability, sub-rate multiplexing capabilities, network management, and modelling tools that simplify the deployment of efficient DWDM metropolitan networks.	<b>Click here to request a quote for the complete system</b>
	<b>Product Description</b> The open and modular architecture of the Optical Metro 5200 delivers network scalability, per-wavelength manageability, bit-rate and protocol independence, and ring survivability.			
Optical Metro TN4X	Product Name	Product Type	Key Features & Uses	Pricing
	Nortel Optical Metro TN4X	STM-4 Multiplexer	The TN-4X Network Element is an STM-4 multiplexer for use as a ring head in STM-4 local network rings, or as an STM-4 ring node in core network applications.	<b>Click here to request a quote for the complete system</b>
	<b>Product Description</b> The TN-4X can also be configured as a low capacity cross-connect for use primarily at the local/regional network boundary. The TN-4X supports a wide range of plesiochronous and synchronous interfaces.
