Mini Link E	Product Name	Product Type	Key Features & Uses	Pricing
	Mini Link E	Microwave Transmission System	Medium capacity Radio Terminals providing 2x2 to 17x2 Mbit/s capacity using C-QPSK and 16 QAM modulations.	<a href="#">Click here to request a quote for the complete system</a>
Mini Link TN	Product Name	Product Type	Key Features & Uses	Pricing
	Mini Link TN	Microwave Transmission System	Microwave solutions that provide cost-effective and intelligent functionality for cross-connection, multiplexing and protection of traffic on sites with several radio directions. Capacities ranging from 2x2 to 32x2 Mbit/s using C-QPSK and 16 QAM modulations.	<a href="#">Click here to request a quote for the complete system</a>
Mini Link HC	Product Name	Product Type	Key Features & Uses	Pricing
	Mini Link HC	Microwave Transmission System	High capacity Radio Terminals providing 155 Mbit/s capacity using 16 QAM and 128 QAM modulations.	<a href="#">Click here to request a quote for the complete system</a>
Mini Link CN	Product Name	Product Type	Key Features & Uses	Pricing
	Mini Link CN	Microwave Transmission System	Is a Hybrid Node, perfect for both all IP networks and TDM to packet migration. The Hybrid Radio Link can transport Native Ethernet and Native PDH simultaneously over the hop. MINI-LINK CN is LTE ready, fully supporting all IP networks with high capacities.	<a href="#">Click here to request a quote for the complete system</a>
