Alcatel 7450

7450	Product Name	Product Type	Key Features & Uses	Pricing
 	Alcatel 7450	Service Switch	<p>The Alcatel 7450 Ethernet Service Switch (ESS) family of Carrier Ethernet switch routers is designed to deliver high-performance MPLS-enabled carrier Ethernet services. At the same time, it provides the ideal platform for metro Ethernet aggregation for fixed and mobile networks.</p>	<p>Click here to request a quote for the complete system</p>
<h3>Description</h3>				
<p>Leveraging Alcatel 400 Gb/s FP3 silicon technology, the 7450 ESS integrates the scalability, resiliency and predictability of MPLS with the bandwidth economics of Ethernet to deliver enhanced business services and enable the metro aggregation of mobile, business and residential services. Available in four chassis variants, the 7450 ESS supports comprehensive Ethernet, IP (IPv4/IPv6), MPLS and Provider Backbone Bridging (PBB) networking with advanced resiliency and synchronization capabilities.</p>
